Education

Makhanlal Chaturvedi National University of Journalism and Communication, Bhopal <i>Bachelor of Computer Applications (BCA), Sadguru Institute of Computer Studies (SICS)</i>	2023 – 2026 CGPA: 8.3/10
Saraswati Vidya Mandir Inter College, Banda <i>Higher Secondary (PCM)</i>	2022 – 2023 Percentage: 52.2%
Saraswati Vidya Mandir Inter College, Banda <i>Secondary School (Class X)</i>	2020 – 2021 Percentage: 84.16%

Work Experience

Healthyenough <i>Data Analyst Intern</i>	July 2025 – August 2025 <i>Remote</i>
- Analyzed large datasets using Microsoft Excel, SQL, and Python to identify business trends and generate actionable insights. - Performed data cleaning, preprocessing, and validation to improve data accuracy and ensure high-quality datasets. - Developed interactive dashboards and KPI reports using Power BI and Tableau to visualize business performance. - Wrote optimized SQL queries to extract, filter, and analyze structured data for reporting and decision-making. - Collaborated with cross-functional teams to understand business requirements and deliver data-driven analytical solutions. - Presented analytical findings through dashboards and reports to support data-driven business decisions.	

Projects

Expense Tracker | *Python, Microsoft Excel*

- Developed an expense tracking application to record and organize daily financial transactions.
- Collected, cleaned, and categorized expense data using **Python** and **Microsoft Excel**.
- Analyzed spending patterns and generated monthly expense summaries for better financial planning.
- Created visual reports and charts to present actionable insights from transaction data.

Sales Data Analysis | *Microsoft Excel, SQL, Power BI*

- Collected and processed sales datasets from multiple sources for business analysis.
- Performed data cleaning, validation, and transformation using **Microsoft Excel** and **SQL**.
- Analyzed sales trends, revenue patterns, and product performance to generate business insights.
- Built interactive dashboards using **Power BI** to visualize KPIs and support data-driven decision-making.

Blood Bank Management System | *HTML, Tailwind CSS, MySQL*

- Collaborated in developing a web-based Blood Bank Management System to efficiently manage donor and patient records.
- Designed a responsive and user-friendly interface using **HTML** and **Tailwind CSS** to enhance accessibility and usability.
- Stored, managed, and validated donor and patient information using **MySQL**, ensuring accurate data retrieval and consistency.
- Implemented blood group search, donor matching, and request management features to streamline the blood allocation process.

Technical Skills

Data Analysis: Microsoft Excel, SQL, Python, Data Cleaning, Data Validation, Data Transformation, Exploratory Data Analysis (EDA)

Data Visualization: Power BI, Tableau, Dashboards, Charts, KPI Reporting

Database: MySQL, MongoDB

Programming Languages: Python, SQL, Java, C

Web Technologies: HTML, Tailwind CSS

Developer Tools: Visual Studio Code, GitHub

Soft Skills: Problem Solving, Analytical Thinking, Business Insights, Team Collaboration
